## *Assisted Living*

At Mountain Memories, we take care of you – at every stage of your life – with the senior care services and amenities that best fit your needs. We constantly explore approaches to keep our community active mentally, socially and physically ... which is our exact mission! We provide additional assistance when you need it and independence and solitude when you don't.

## *Memory Care*

Choosing the right Memory Care community is paramount. Often times, there are conflicting emotions that come into play and having the necessary experience with this transition and assisting in this often difficult process are as important as providing the best possible care for you or your loved one. We are there to help you navigate this challenging process.

## *Restaurant-Style Dining (Coming Soon)*

Three fresh, chef-prepared meals are served daily in our dining room. When you arrive, our friendly and helpful dietary staff serves your choice of beverage and notes your selections from the daily specials or alternative choice menu. Special requests are accommodated for individual dietary needs. Just let us know and we take care of the rest.

Guests and family members are always welcome to stay and join their loved ones for meals.

Nutrition is a big part of our care as we believe dining and wellness go hand-in-hand. Proper care means proper nutrition and we make sure our residents are eating nutritious, well balanced food.

*Our goal is to make  
every day special for every resident.*

## *Our Community*
